Program with 6 sessions of specific techniques personalized.

The medical consultation, advised, is included. Minimum duration of 6 days.

For greater efficiency, this slimming marine cure should be integrated into the thalassotherapy cure and we recommend the full board dietetic.

THALASSOTHERAPY TREATMENTS

Multijet bath 20' – 35€

Whirlpool made in a tub of warm sea water which stimulates circulation by performing multiple alternating massages. The anatomical shape of the tub provides a strong sense of relaxation. Indicated in cases of stress and fatigue.

Bubble bath 15'- 35€

Done in a tub filled with hot seawater enriched with water soluble seaweed and essential oils. The enormous quantity of small bubbles, creates a strong turbulence, that tones up the veno-lymphatic system. Indicated to combat cellulite and relaxes the muscular mass, giving a sense of well-being.

Underwater shower or Marine cellulite drainage 20'- 45€

Through an underwater jet, this hydromassage is done manually in a tub filled with heated seawater. The controlled pressure of this jet causes a turbulent current which follows a defined trajectory. This type of bath is specially indicated for anxiety, muscle tension, circulatory problems and cellulite.

Thalaxion 20' – 35€

Subjected to medical consultation (included). This treatment is done in a semi-closed tub, where by several sea-water injectors apply pressure sequentially on various zones of the body, legs and abdomen, it alternate hot and cold jets.

Is indicated for cellulite, tired legs and circulatory (veno-lymphatic) problems.

Jet shower 12' – 35€

A high impact hydromassage done with a jet.

The heated seawater is sprayed by the hydro-therapist with a variable pressure at a distance of more or less 3 metres. Is indicated in cases of muscle tension, spondylarthrosis, lumbago and circulatory deficiencies.

Sprinkler shower 12' – 35€

An invigorating hydromassage with a soft jet it can be used by everyone even by elderly or fragile people, with vein or joint problems.

The heated sea water is projected at a distance with a variable pressure by hydrotherapists. Indicated for cellulite and muscle relaxation.

Affusion shower 12' – 35€

Comfortably lying down, is submitted to a fine spray of heated sea water.

A soft hydromassage that activates the lymphatic system and the superficial circulation. The benefits of this treatment extend themselves to the respiratory system, because of the aerosol effect produced by the marine vapor emitted.

Dynamic Pool 25' – 40€

Collective gymnastics carried out in a heated seawater pool. Directed by a physiotherapist or a qualified monitor, the exercises become easier due to the reduced gravity and the water temperature that strengthens the muscles without causing pain.

This exercise works the inferior members mainly.

Underwater jet-stream pool 25' – 35€

The underwater jet is practiced in a collective pool with heated seawater.

The therapist indicates the movements to be made against the jet current.

This localized massage stimulates and relaxes the muscles and activates the circulation.

Seaweed therapy 20' – 45€

Is characterized by the application of thin layers of heated seaweed on the skin. An electric blanket spreads a low heat, allowing a peripheral dilation of the epidermis as well as the absorption of the seaweed elements.

This treatment is an excellent tranquilizer, invigorating and slimming

Marine muds 20' – 45€

Marine mud used through local application, directly to painful areas, has a sedative effect activated by heat emitted by a blanket.

These are prescribed by the medical doctor (included) for the alleviation of rheumatism, arthritis and arthrosis.

Hand-mud treatments 20' – 45€

To take care of painful and stiff hands resulting from problems with rheumatism, arthritis, and arthrosis. This equipment contains heated marine muds where specific exercises are done. This treatment can also be prescribed in cases of post-operational rehabilitation. The medical consultation is advised (included).

Aerosol 12' – 30€.

Fine sea-water spray used to stimulate the respiratory passages and to unblock nasal mucus. Treatment indicated in cases of respiratory infections, asthma, sinusitis and bronchitis or common cold.
